Gift coupon

Use

Some of your customers would like to add gift coupons to their list. The objective is to let donators

- feel free about the list because they may not want to choose a specific product in the list
- fix the amount of the gift accurately

This is like a contribution. At the closure of the list, you will generate a credit slip to refund this total to your client who has created the list.

Create a gift coupon

- First create a new product called « gift coupon ». Set the price (for example 10€) and add a new image by selecting the « gift.gif » file in the modules/blockwishlistpro directory.
- When creating his list your customer could add this gift coupon as a product. It is advised to choose “top” as priority to display it on the top of the web page (top=first).
- The donator will purchase this product as everyone else.

Send the wishlist address

You can get here the permalink of your list [1], send the list webpage address by email [2], add your personal message to the default message [3], and view your e-mail before sending [4].

The screenshot shows the 'Send the wishlist address' interface. At the top, there are three tabs: 'Products management', 'Offered gifts', and 'Send the wishlist address'. The 'Send the wishlist address' tab is selected and highlighted with a red box. Below the tabs, there is a link to the list, labeled with a red box containing the number '1'. The link is: http://localhost/test/prestashop_1.4.4.0/modules/blockwishlistpro/view.php?token=C26FFAE2A71540B3. Below the link, there is a section titled 'Recipients' emails' with ten email input fields, labeled with a red box containing the number '2'. Below the email fields, there is a section titled 'Personal Message (optional)' with a text area, labeled with a red box containing the number '3'. Below the text area, there is a 'Send' button, labeled with a red box containing the number '4'. Below the 'Send' button, there is a small box with instructions: 'To view your e-mail before sending, click on 1 and 2 below' and two links: '1. Create email' and '2. View email (in a new sheet)'.

Communicate your list

In addition to the option “send the wishlist address” above it is possible to find out your list by entering your name into the “wishlist block”. Hence you just have to communicate the name of the e-shop to your friends.

The screenshot shows the 'WISHLISTS' block. It has a title 'WISHLISTS' and a subtitle 'Offer a gift'. Below the subtitle, there is a text input field with the placeholder text 'Search for a list by name'. The input field is highlighted with a red box. Below the input field, there is a 'validate' button. To the left of the input field, there is a small icon of a person.
